

## Conference Networking Activity - Puzzle Piece Collage

You are an essential piece of the puzzle making it all work in your job at your school district! Help create a completed puzzle by making a collage that represents your vision of your best self as a paraeducator or your dreams and aspirations for yourself, your school community, and/or your larger community.

During your breaks between classes, you are invited to visit the tables at the back of Exhibit Hall A, where you will find everything you need to create your collage including magazines, scissors, glue, and labels to write your name and school district on to add to your collage.

Connect your puzzle piece to others on the wall and see how the puzzle grows over the three days! Be sure to take your piece home with you at the end of the conference!

***Optional: Bring copies of photos of yourself and your work or other relevant photos to incorporate into your collage.***
